

## Webinar-Waterborne Polyurethane Dispersions- Concept and application

IPUATC is glad to organize a webinar on "Waterborne Polyurethane Dispersions- Concept and application".

**Date: 3rd July 2023**

**Time- 4 pm India Time**

**Abstract:** Conventional Polyurethane coatings contain significant amount of organic solvent. Increasing concerns over environmental pollution and health risks led to the development of waterborne PU formulations. The concept of synthesis of waterborne PU dispersion (WBPUD) and various applications of WBPUD will be discussed.

**About the presenter:** Dr. Snehalata is associated as Chief Technical Officer with the Indian Polyurethane Association for last five years. She has completed her Ph.D. from National Chemical Laboratory (CSIR-NCL), Pune in 2008. She worked as a senior scientist in Halliburton Technology (India) Pvt. Ltd. for seven years thereafter. She has 10 US Patents and 12 publications in international journals of repute for her credit.

**Kindly Register for the webinar by just sending a mail to Dr. Snehalata at [snehalata@ipuatc.com](mailto:snehalata@ipuatc.com) till July 1, 2023**
