

Webinar - Eco-friendly mould release technology and its impact on sustainability by Dr. Holger Klyszcz-Nasko (ACMOS, Germany)

Date: 27th October 2023,

Time: 3:30 pm India Time.

Abstract: Most of the current standard mold release agents are used industrywide in moulded polyurethane applications contain 90-95% VOCs. The webinar will talk about:

- (i) The impact of VOCs on the environment and why it is essential to reduce the VOCs emissions;
- (ii) Where the VOC comes from in the release agent and
- (iii) How the role of release agents will help to improve sustainability in polyurethane production

About The Presenter: Dr. Holger Klyszcz-Nasko (59) studied Chemistry in Bremen, PhD in Biochemistry. He attended ACMOS since 1992 and is the Head of R&D since 2001. Dr. Klyszcz-Nasko is experienced in many fields of mold release applications, especially PUR, FRP and Rubber

Kindly register for the webinar by just sending a mail to Dr. Snehalata on snehalata@ipuatc.com till October 25, 2023. Link will be circulated on 26th October 2023.
